Our Story

MDR Digital Graphics and Printing Services started in 2018 in Poblacion, Ibaan, founded by Roberto and Felcy Maranan with little more than a tarpaulin printer and a heat press. What began as a neighborhood shop grew steadily as more students, local businesses, and organizers turned to MDR for tarpaulins, sublimation shirts, jerseys, and polos.

By 2022, that growth led to a second branch in Cuenca — and today MDR supports a combined team of 20 across both locations, still handling every order with the same hands-on care the shop started with.

What We Stand For

Hands-On Care

Every order, from a single tarpaulin to a full team's uniforms, is still handled with the same care the shop started with in 2018.

Full-Service Production

Design, printing, fabrication, and finishing are handled in-house, start to finish, under one roof.

Local Roots

Two branches — Ibaan and Cuenca — built one order and one referral at a time, for the communities we're part of.

Dependable Turnaround

From a single-piece giveaway to a full event order, we coordinate clearly from quotation to release.
